NITROCHARGER SPORT	60037 ¹	2	
STEERING DAMPER	OMESD32		
CASTER KIT	CALR1	1	
	CALR2 ¹		
COIL PACKER	OMELRCP1 ⁴		

REMARKS:

1 Caution: Due to altered gearbox mounts on Models after 1998 any lift above OE ride height may cause front driveline vibration that can only be rectified by fitment of front double cardan joints.

Caster Kit will increase caster angle by 2°. Check manufacturer's specifications to determine if Caster Kit is required.

CALR1 suits 38mm wide control arms. CALR2 suits 44mm wide control arms.

2 2752 coil has a softer spring than OE coil. This is to provide improved ride quality with light loads only.

OE springs are designated as medium load springs.

3 Original inner helper coil, where fitted, must be re-installed with OME Coils.

4 8mm Steel Coil Seat Packer, refer to selection chart supplied with packer.

Important: To prevent possible over stressing of the spring, only one packer can be fitted under each coil seat.

5 When remaining stock of N45F is exhausted no further product will be available.

6 For high articulation vehicles it is recommended to replace rear upper shock mount with FK64 and matching shocks 60146 or 60147.
